TP2-E

Electric portable hydraulic power unit

The **TP2-E** hydraulic power unit is a low budget equipment designed and manufactured by Maus Italia for operating:

- The hydraulic tube incising/cutting guns series **Kattex**
- The stub pullers series **Grippul**
- The continuous tube pullers series **Onlypul**

TP2-E hydraulic unit is especially suggested for small maintenance works and in difficult working spaces

Cost efficient

Easy to use

Light

Model	Maximum pressure		Oil capacity		Supply	Remote control	Dimensions			Weight without oil		IP
